This SPDS outlines important changes relating to information contained in the PDS and has been issued to advise all Energy Industries Superannuation Scheme members of the impending changes to some of the scheme's investment strategies. This SPDS has been prepared without taking account of your objectives, financial situation or needs. You should, before acting on this SPDS, ensure that you have read this SPDS and your relevant PDS and consider its appropriateness having regard to your objectives, financial situation and needs.

# Introduction

## What is the purpose of this SPDS?

The purpose of this SPDS is to provide information on changes to the investment strategies offered by the Energy Industries Superannuation Scheme.

## Changes to asset allocation ranges

The changes to the asset allocation ranges are for the Australian Equities and International Equities assets in the High Growth, Trustee Selection and Diversified strategies. Essentially, these changes allow the Trustee flexibility to increase its actual weightings in Australian and International Equities so that it can respond more appropriately to changing market conditions.

These changes are as follows:

### High Growth

	Old allocation	New allocation
Australian Equities	25% - 40%	25% - 45%
International Equities	25% - 40%	25% - 45%

### Trustee Selection

	Old allocation	New allocation
Australian Equities	15% - 35%	15% - 40%
International Equities	15% - 35%	15% - 40%

### Diversified

	Old allocation	New allocation
Australian Equities	15% - 30%	15% - 35%
International Equities	15% - 30%	15% - 35%

It is important to note that the Trustee Selection option is only available to members of the Retirement Scheme and Defined Benefit Scheme. Members of the Defined Benefit Scheme can only invest in the Trustee Selection Option.

## Removal of the Listed Property asset

The Listed Property asset class, which was previously coupled with the Unlisted Property asset class as part of the Growth assets in the investment tables shown in the current PDS, have now been removed and consolidated to form part of the Australian Equities asset class. This has been applied on all investment strategies with the exception of the Cash strategy which did not previously hold this asset class.

## Change to the definition for the Cash strategy

Previously the definition of the Cash strategy stated that 'a small proportion of the assets (up to 15%) are invested in global interest type assets having a longer maximum term.' This is no longer applicable to the Cash strategy and the new definition is as follows:

### Cash strategy definition

The Cash strategy invests wholly in short term Australian money market assets. This strategy offers investments for short term investors or those seeking less volatile returns.

# Enquiries

## Who do I contact for enquiries, help and advice?

If you have any issues regarding the information contained in this SPDS, then please contact:

### Member Services

Ground Floor  
28 Margaret Street  
Sydney
