

Defined Benefit Scheme

Mobility Transfer From State Super or Local Government Super

Who can apply?

Members who can apply are those who:

- were contributing members of either the State Superannuation Scheme (SSS) or Local Government Super (LGS) Defined Benefit Scheme; and
- commenced employment with their EISS Super Scheduled Employer within three (3) months of terminating employment with their SSS or LGS employer; and
- have not applied for payment (or rollover) of any part of their SSS or LGS benefits (including the Basic Benefit).

What are members' rights in the Defined Benefit Scheme?

If an election to transfer is accepted by EISS Super, the member's basic rights are comparable to those in their former scheme as at 30 June 1997. In particular, the member will retain the original scheme entry date and 'service' accrual.

The value of a member's accrued benefits (including the Basic Benefit) will be transferred into the Defined Benefit Scheme. This value will be calculated in accordance with actuarial advice and will represent the value of the deferred benefit as at the date of transfer. The administrator of the former scheme will advise the member of the amount being transferred.

Members will be required to contribute to the Defined Benefit Scheme at the same rate as would have applied in their former scheme. The new employer will be asked to continue deducting personal contributions from a member's salary at that rate and to forward those contributions to the Defined Benefit Scheme.

For further information, please read the Defined Benefit Scheme Product Disclosure Statement available from eisuper.com.au/pds or by contacting us on 1300 369 901.

How do I apply?

Simply complete the relevant 'Transfer of Contributory Membership' form and return it to us within three (3) months of commencing employment with your EISS Super Scheduled Employer. The form is available from eisuper.com.au/forms or by contacting us on 1300 369 901.
